Free Aviation Security Training - April 19th, 2011

In this day and age, it is easy for Business Aviation professionals to feel embattled by the economy, media, anti-noise critics, ecology activists and regulators. It seems like maintaining current levels of industry health is all the success we can hope for. What if we said there is a FREE way to strengthen our industry and promote greater demand and growth? Attend our General Aviation Security Training event and we will show you how our

CABA Mission Statement

Our mission is to foster and promote aviation related business throughout Colorado; to collectively address and respond to issues impacting Colorado Airports, including safety and operational effectiveness: to educate

industry's best offense is a good defense.

April 19th 8AM to 5PM

Morning session at the Runway Grill above the Denver Air Center

Afternoon Session at the Aspen Room in the Terminal Building

Rocky Mountain Metro Airport (Jeffco)

These are some of the reasons why you will want to attend our free General Aviation Security Training event conducted by the Waukesha County Technical College of Wisconsin.

- Uphold our due diligence reputation in our community
- Discover ways to promote value and demand for business aviation clients
- Prevent legislative security requirements through proactive efforts
- Reduce liability and losses of preventable security incidents
- Better preparation to respond to accidents and medical emergencies
- Better defense from airline company claims that passengers are safer at their airports and terminals

Waukesha County Technical College in Pewaukee, Wisconsin has received a Department of Homeland Security grant to develop training programs to enhance security at our nation's general aviation airports. We are thrilled to find a program that is capable of building on the foundation of AOPA's Airport Watch program and taking our country's airports to the next critical step toward crime prevention. The success of this program depends on YOUR participation to make our training effective.

Please share this event with your airport friends and encourage them to attend as well. We all want a safe working environment and continued growth in our industry, JOB SECURITY! We ALL must do our part. We are absolutely capable of deterring crime at our airports. This program will show you how and will set us on a path towards greater success.

Jeppesen Announces the Mobile TC App for iPad

Approved by the FAA for use instead of paper charts

On February 11th, Jeppesen announced that Executive Jet Management has received authorization from the Federal Aviation Administration to use the Jeppesen Mobile TC App for iPad as an alternative to paper

the general public about all aviation activities in the state, and to preserve the state's airport related businesses as valuable economic assets to the community at large.

aeronautical charts. The authorization allows Executive Jet Management to use iPad and the Jeppesen Mobile TC App as the sole reference for electronic charts, even during taxi, takeoff and landing. Executive Jet Management, a wholly owned subsidiary of NetJets Inc., is a leading provider of worldwide jet charter and aircraft management services.

This announcement is a result of a three-month extensive in-flight evaluation managed by Executive Jet Management and Jeppesen with regular engagement of the FAA (including local and national Electronic Flight Bag authorization authorities). The cross-industry collaboration sets an important precedent for the aviation community. Lessons learned, processes established, and templates developed during this project may benefit other companies seeking to deploy EFB solutions on iPad.

The Jeppesen Mobile TC App and iPad were thoroughly evaluated by Executive Jet Management pilots who logged more than 250 flight segments. Pilots participating in the evaluation reported that they were particularly pleased with the app's ease of use, simplicity to manage, speed and display clarity. As a result of the full analysis, enhancements to crew procedures, training updates and software improvements were included in the Jeppesen Mobile TC App version 1.2, released last month.

The authorized EFB configuration is a Class 1 portable, kneeboard EFB solution that is secured and viewable during critical phases of flight as defined in FAA Order 8900.1. Information obtained from this evaluation will also be useful in gaining future authorization for Class 2 mounted configurations utilizing iPad.

For more information on the Jeppesen Mobile TC App, please visit www.jeppesen.com/jeppesen-mobile-tc.

NBAA Celebrates the 22nd Annual Schedulers & Dispatchers Event

The 22nd Annual Schedulers & Dispatchers (S&D) Conference at the Savannah International Trade and Convention Center in Savannah, GA, delivered on its theme of "Reaching Out for Success" with over 2,200 attendees and 375 exhibits during three solid days of education, networking and presentations.

The exhibit floor opened at 10:00 a.m. with 375 exhibits. "The networking and business being conducted on the floor was a wonderful sight to see, and traffic was definitely busy from the time the General Session ended until the conference closed for the day," said Damato. "We received a lot of positive feedback from exhibitors, with many declaring at the end of the first day they were glad they came this year and will definitely be back next year."

The eight educational breakout sessions offered during the afternoon were highly attended, with some close to standing room only. Bolen talked about the two-year anniversary of the No Plane, No Gain advocacy campaign and inspired attendees with a video showing the true face of business aviation. The video can be found online at www.nbaa.org/works.

CABA Unveils Aviation Scholarship

Are you someone who likes aviation? Do you want to be a pilot, mechanic, flight attendant or a dispatcher? Are you currently a student or a professional that is on that path but needs the support to move forward? The Colorado Aviation Business Association wants to support you. We are announcing our annual scholarship and we want to provide you with the funds to make your dreams come true.

Our purpose is to provide funding to students and professionals who are looking to start and/or expand their training, education, etc within the field of Aviation with a pathway to General and Business Aviation. Scholarship amount and awarding will be based on the defined need of the applicant, not to exceed \$3,000.

Applicants will be asked to provide the following criteria:

- Definition of training or schooling that the scholarship will go towards.
- Essay of what makes you a good candidate to receive the scholarship.
- Two reference letters.
- A copy of current resume.

These must be submitted to our Scholarship Committee:

CABA Scholarship Fund
8001 S. Interport Blvd. Ste. 300
Englewood, CO 80112

Scholarships will be awarded at our Aviation Saves Dinner Event, June 10, 2011.

If you have questions or would like to speak to someone directly, please email us at aviationsaves@mycaba.org or call MacKenzie Kelly, Aviation Saves Committee Chair, at 303-638-4573.

CABA Intern Secures a Job with Jeppessen!

Congratulations to Kevin Foley for securing a job in Sales and Service at Jeppessen. The CABA board thanks you very much for your time and efforts as an intern with CABA.

CABA is looking for a **new intern** to both support CABA and grow within the Colorado Aviation Community. Many interesting events coming up soon, join us during these exciting times! Interested parties should contact Iver Retrum: IRetrum@mycaba.org.

West Star Aviation News

Window Repair Now an Option

West Star Aviation of Grand Junction, Colo., now does **window repair** and estimates that repairing damaged windows rather than replacing can yield savings of **90 percent**. Most corporate aircraft are covered, including Falcons, Hawkers, Citations, Challengers, Learjets, Conquests, King Airs, Embraers and Westwinds. The MRO offers free window evaluations at all of its locations to determine if repair is a possibility. It also offers a **rain repellent** that beads water off the windshield without wipers.

Job Postings for Employers and Job Seekers

Please visit the CABA job posting. Please send us any aviation jobs you would like to post or go to: <http://mycaba.org/employmentopportunities>.

Visit the CABA Website and Sponsorship Opportunities!

We recommend you visit the CABA Website to keep informed on events and exciting news happening in your Colorado Aviation Community. We always appreciate any sponsorship you can provide to your CO Aviation Business Community.

Please contact Nathalie Drolet with any news or events you would like to share with your CO Aviation colleagues NDrolet@mycaba.org. You may also contact Nathalie if you wish to sponsor any CABA event! Thank you in advance for playing your part!
